Platform-based Programming
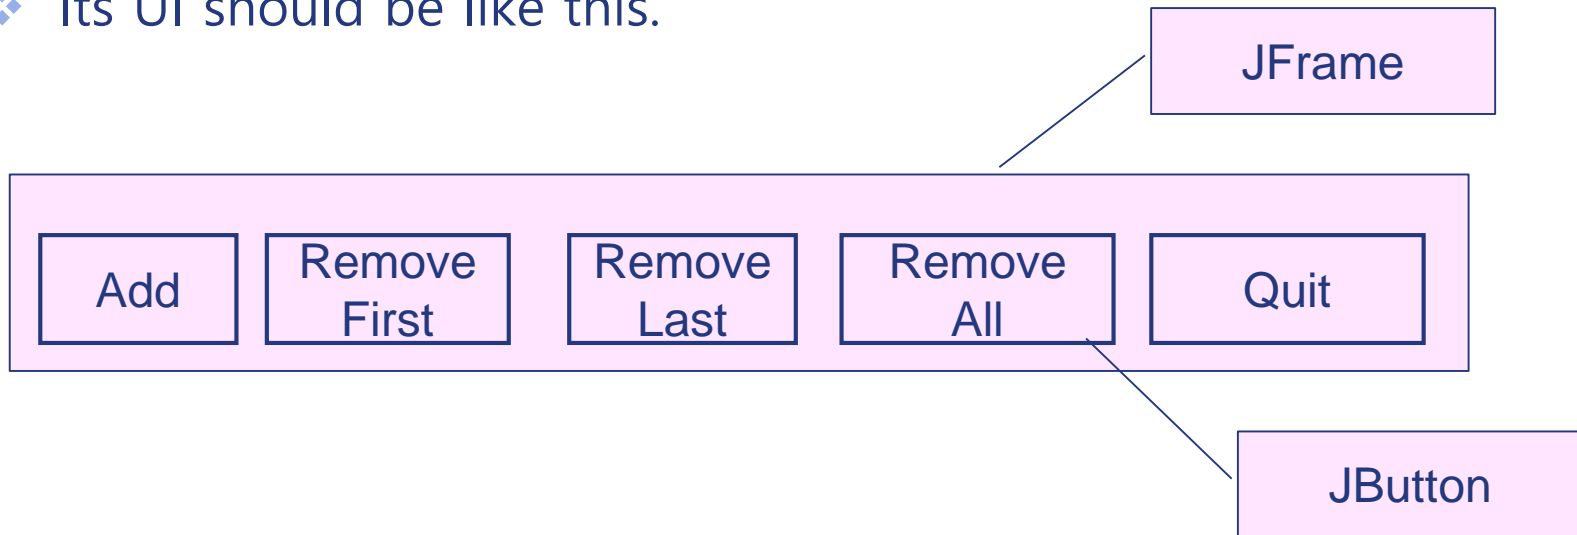

#10   Swing
   1) Frame and Panel
   2) Button
   3) Action

2019년 2학기

Problem

❖ Its UI should be like this.

Add	Remove First	Remove Last	Remove All	Quit

JFrame

JButton

❖ When each button except "Quit" button is clicked, show a dialog box that displays the button text.

❖ For each button, display its tooltip such as "Help for button text"

❖ In the case of "Quit" button, the program will terminate.

❖ Be sure to use Action!
